

RELEASE NOTES

IP Camera Server Firmware (version # v2.1.1.1)

release date: 05/11/2015

COMPATIBILITY

Compatible with current generation OpenEye IP cameras:

- OE-C6012-RW
- OE-C6022-FPW
- OE-C6022-APW
- OE-C7012-RW
- OE-C7022-FPW
- OE-C7022-APW

FEATURE ADDITIONS / CHANGES

- **CHANGED** - Default port changed to 80
- **CHANGED** - Updated to recognize Exacq speed & stop commands for PTZ cameras

RESOLVED ISSUES

- **BUG** - Cameras now correctly add the "W" at the end of the part number in camera discovery
- **BUG** -Relay (digital out) is now disabled by default to prevent log spamming
- **BUG** - Extra space in gateway when applying IP settings has been removed

Notes

- Please refer to [FAQ 891](#) for proper installation instructions.
