RELEASE NOTES

Arecont Vision Driver Installer v3.0.0.0300
release date 09/19/2014

These release notes highlight changes and new features in the Arecont Vision Driver Installer v3.0.0.0300.

COMPATIBILITY

- Server software 5.0 and newer

IMPORTANT NOTES

- TFTP (legacy) drivers are required for some older camera models
  - 1st generation models
  - AV8180 and AV8360
  - 2nd generation models
- RTSP drivers are required for newer camera models
  - All SurroundView models excluding the AV8180 & AV8360
- Customers wishing to use MJPEG are required to use TFTP (RSTP does not support MJPEG)
- This installer will be bundled with future versions of the Server Software

INSTRUCTIONS

1. Download and run the **Arecont Vision Driver Installer**
2. Select TFTP or RTSP and click **Next**
3. Click **Close** once installation is complete

Note: Only one driver type can be active at a time. To switch the driver, rerun the installer
